

SURIYA B

React Front-End Developer

Chennai, India | **Email:** suiryab2105@gmail.com | **Mobile:** 9944001868

Summary

- React Front-End Developer with 3+ years of experience developing scalable web applications using React.js, Next.js, Redux, JavaScript, TypeScript, HTML5 and CSS3.
- Experienced in enterprise portals, responsive UI development, reusable components, REST API integration, Firebase Authentication, Firestore and modern front-end architecture.
- Hands-on experience with Stripe, Razorpay, role-based access control, dashboard management, production support, deployment, performance optimization and Agile development.

Skills

Frontend Development: React.js, Next.js, Redux, JavaScript (ES6+), TypeScript, HTML5, CSS3

UI Frameworks: Ant Design, Bootstrap, Tailwind CSS, Responsive Web Design, Figma

Database & Backend Services: Firebase, Firestore

Development Tools: Git, GitHub, VS Code, REST APIs, Jira, Huly

Payment Integration: Stripe, Razorpay

Experience

Trident Solution Pvt Ltd

Software Engineer | May 2023 – Present

Enterprise Fitness Management Platform

Business Flow:

Customer → Booking → Payment → Coach Assignment → Business Approval → Admin Monitoring

Contribution:

- Developed customer-facing booking workflows that enabled users to browse programs, schedule classes, and manage bookings.
- Implemented secure authentication and role-based access for Customers, Coaches, Business Owners, and Administrators using Firebase Authentication and Firestore.
- Integrated payment workflows using Stripe and Razorpay to support secure subscription and booking transactions.
- Built business and admin dashboards for managing coaches, classes, schedules, bookings, and customer activities.
- Developed reusable React components and integrated REST APIs to streamline booking, scheduling, and reporting operations.

- Supported production releases, performance optimization, bug fixes, and staging validation to ensure platform stability.

Enterprise Business Management Platform

Business Flow:

Admin → Manager → Agent → Customer Operations → Reports

Contribution:

- Developed role-based dashboards for Super Admin, Manager, and Agent users to manage day-to-day business operations.
- Built user management, configuration, and reporting modules with reusable React components and REST API integration.
- Implemented secure role-based authorization to control access across business modules.
- Converted Figma designs into responsive React interfaces using Ant Design and modern UI practices.
- Optimized API integration and component rendering to improve application performance.
- Participated in Agile development, production support, deployment, and issue resolution.

Online Food Ordering & Delivery Platform

Business Flow:

Customer → Cart → Checkout → Payment → Order → Restaurant → Delivery → Back Office

Contribution:

- Developed customer-facing ordering workflows including menu browsing, shopping cart, checkout, and order tracking.
- Built back-office modules for managing products, orders, customers, and business operations.
- Integrated Firebase Authentication, Firestore, and REST APIs to support secure and real-time application workflows.
- Implemented payment integration and order processing features to ensure seamless transaction handling.
- Enhanced responsive UI, resolved production issues, and supported deployment activities across staging and production environments.
- Collaborated with cross-functional teams to deliver new features and improve application reliability.
